

**For Immediate Release**

## **LEVROIL Announces Extended Hour Food Grade Compressor Oil**

Pittsburgh, PA – March 1, 2008 – LEVROIL LLC is excited to announce the newest addition to its Food Quality Lubricant (FQL) Extended Hour Series of Compressor lubricants.

LEVROIL FQL-C Extended Hour Series is designed specifically for rotary screw, rotary vane and reciprocating type compressors. Typically, good compressor oils are formulated for 2,000 operating hours. LEVROIL has cracked the 2,000 hour mark and extended usage up to 4,000 – 6,000 hours respectively with a proper maintenance program.

FQL-C Extended Hour Series has returned favorable results in environments where Food Grade H-1 lubricants are required. In addition to the superior additive package, TAN (Total Acid Number) and viscosity limits have greatly extended the life and load carrying capabilities of the oil.

LEVROIL FQL-C Extended Hour Series was created to meet the demands of extended life, superior performance while reducing the cost of oil life cycle and maintenance expenditures.

### About LEVROIL LLC

LEVROIL LLC is an online premium industrial lubricant e-commerce business and was created to serve as an outlet to the rising cost of lubricants in the market today. LEVROIL's strategy is to keep pricing for high value products competitive and combine that with an easy to use ordering system. We accomplish this by maintaining low overhead and pass the savings to the customer. Together, this combination is aimed to meet the needs of manufacturers and end-user customers alike. LEVROIL offers a line of Industrial, Food Grade, Biodegradable and specialty products. More information about LEVROIL LLC can be found at <http://www.levroil.com>.
