

FQL Air Line

FQL Air Line is fully-formulated as food-grade H-1 oil developed to meet FDA 21 CFR 178.3570, and meets the requirements of NSF for air tool equipment. This oil is formulated with high performance antioxidants and anti-wear additives to meet the challenges of industrial environments. This product provides lubrication of all air line equipment used in food-processing plants.

Applications

- Air Tools
- Air-Operated Processing And Packaging
- Knives
- Saws

Characteristics

- Excellent Antioxidant And Anti Wear Properties

Typical Properties

FQL Air Line	ASTM Test	FQL Air Line
ISO Viscosity Grade	D2422	32
Viscosity, cSt.	D445 40 ^o C	32
	D445 100 ^o C	4.0
Viscosity Index	D2270	100
Pour Point	D97 ^o C	-11
	D97 ^o F	-24
Flash Point	D92 ^o C	190
	D92 ^o F	375
Specific Gravity	D1298 ^o C	0.86
Copper Corrosion	D130	1b
